

SMAART v7.0 DEMO FUNCTIONALITY LIMITATIONS

READ ME!!

Your Smart v.7 DEMO is limited as follows:

- Will not save files or retain configuration upon shut down.
- You can load a reference trace or impulse response, but not a configuration file.
- Max delay for Transfer Function measurements is limited to 50 milliseconds.
- Cursor readout background color is a lovely shade of bright orange.
- There is a trial license that will self activate on first run and will expire in 30 days.
- Tampering with or changing the system time will cause the license to expire.
