

## PRODUCT DESCRIPTION

Cabriole™ is a major breakthrough in stage and studio flooring. With cushioning between two reversible sides, Cabriole is a unique double-sided dance floor. It is an excellent flooring surface for both studio and performance spaces. And it is perfect for touring because it is lightweight and portable. Now dancers can have cushioned comfort both in the studio and while on tour.

Weighing less than two pounds per linear foot, Cabriole is easily handled during transport. And Cabriole rolls out easily (again and again – as often as needed) without cracking, separating or fracturing – even when coming in from the winter cold.

Cabriole is a double-sided, reversible dance floor, black on one side and grey on the other. Both sides offer the same non-skid finish designed for the controlled slip preferred by dancers. The matte finish helps prevent distracting reflections.

Cabriole is only one of the floors that Rosco offers in its Floor System Range. Other Rosco floor products offer a variety of colors for a range of different applications, including several designed for use in permanent installations and as decorative elements.

## PRODUCT SPECIFICATIONS

Width: 55" (1.4 m)  
 Length: 147.7' (45 m)
