

PRODUCT DESCRIPTION

Roscotiles are made of durable 100% vinyl. The tiles are 1/8" thick (2.5 mm), 3' x 3' squares (.914 m x .914 m) and are available in three colors: Black, White and Grey. Roscotiles are easy to put down and pick up, which makes them ideal for flooring situations which change in size and shape. It is also easy to change a setting by simply rearranging tiles or changing tile colors.

Roscotiles weigh only 12 pounds each, providing for easy movement. They come in a matte finish, but can be buffed to a gloss finish if desired.

For either permanent or semi-permanent installations, it is desirable to use Rosco Double Stick Tape (No. 851 08740 4825) at all tile seams to adhere the tiles to the floor. Roscotiles will not break or crack under normal use, however, should a tile become damaged or gouged, the individual tile can be easily replaced, rather than replacing an entire strip as with roll floors.

Rosco tiles are flame retardant. When tested in accordance with ASTM E648/NFSA 253, the Critical Radiant Flux is > 1.0w/cm².

PRODUCT SPECIFICATIONS

Width: 3' (.914 meters)
 Length: 3' (.914 meters)
 Thickness: .125" (3mm)
 Weight: 12 lbs./tile (5.44 kg/tile)
 Warranty: Three years covering manufacturing defects.
